

# DRAFT Proposed Indicators for ROMA Next Generation

*Note items in italics are carried over from current reporting system.*

## Community Level Draft Indicators

### Goal Two: Community Action joins with other community stakeholders to improve the conditions in which people with low incomes live.

#### Outcome 1: Community Action joins with other community stakeholders to improve or create the following assets in neighborhoods with low incomes:

**2.1**     **DEVELOPMENTAL ASSETS** – These are assets that allow residents to attain the skills needed to be successful in all aspects of daily life (e.g., educational institutions, early learning centers, and health resources).  
*Assets, in this area, are about the actual programs or services that help to improve the skills of the individual. It is not about the number of individuals who improve skills (that would be reported in Goal One or Six), but rather the availability of services for skill building in the community.*

check if you use CSBG \$ to support this	In this column, describe the services that led to the outcome.	OUTCOME INDICATOR	How Many?	Check if this project was carried over from prior year	Check if this project will be carried over to the next year
2.1a		<i>The number of safe and affordable child development opportunities created, expanded or maintained</i>	<i>How many programs were created? Or How many slots were made available?</i>		
2.1b		<i>The number of before-school and after-school program placement opportunities created, expanded or maintained</i>	<i>How many programs were created? Or How many slots were made available?</i>		
2.1c		<i>The number of educational and training placement opportunities (e.g. literacy, ABE, GED, ESL, life skills, vocational, and other post-secondary) created, expanded or maintained</i>	<i>How many programs were created? Or How many slots were made available?</i>		
Blank lines for additional					

**2.2**     **COMMERCIAL ASSETS** – These assets are associated with production, employment, transactions, and sales (e.g., labor force, retail establishments, factories or other production operations).  
*Assets, in this area, are about the development of employment opportunities (in private or non-profit sectors) **and** stimulation of business in the low income community. It is not about the number of individuals who got jobs (that would be reported in Goal One), but rather the increase in availability of employment for individuals with low income in the community.*

CSBG \$ support this ?	In this column, describe the services that led to the outcome.	OUTCOME INDICATOR	How Many?	carried over from prior year?	will be carried over to the next year?
2.2a		<i>The number of jobs for individuals with low income are created, expanded or maintained</i>	<i>Number of jobs</i>		
2.2b		<i>The number of commercial services within low-income neighborhoods created, expanded</i>	<i>Number of services</i>		

		<i>or maintained (this could include grocery stores, pharmacies, etc. - please describe)</i>			
2.2c		<i>The number of financial and banking services for individuals with low income are created, expanded or maintained</i>	<i>Number of services</i>		
	Blank line				
<b>2.3</b>	<p><b>RECREATIONAL ASSETS</b> –These assets create value in a neighborhood beyond work and education (e.g., parks, open space, community gardens, and arts organizations).  <i>Assets, in this area, include community centers and other neighborhood based programs and facilities designed to provide safe and stimulating opportunities for individuals with low-income. It is not about the number of individuals who used the assets (that would be reported in Goal One or Six).</i></p>				
CSBG \$ support this ?	<i>In this column, describe the services that led to the outcome.</i>	<b>OUTCOME INDICATOR</b>	<i>How Many?</i>	<i>carried over from prior year?</i>	<i>will be carried over to the next year?</i>
2.3a		<i>The number of community facilities created, expanded or maintained</i>			
2.3b		<i>The number of community programs created, expanded or maintained</i>	<i>How many programs were created? Or How many slots were made available?</i>		
2.3c		<i>The number of quality of life resources created, expanded or maintained (describe the resource)</i>			
	Blank line				
<b>2.4</b>	<p><b>PHYSICAL ASSETS</b> - These assets are associated with the built environment and physical infrastructure (e.g., housing, commercial buildings, and roads).  <i>Assets, in this area, include things that are part of the physical world. It is not about the number of individuals who got weatherization services (that would be reported in Goal One), but rather the improvement in the housing stock in the low income neighborhood.</i></p>				
CSBG \$ support this ?	<i>In this column, describe the services that led to the outcome.</i>	<b>OUTCOME INDICATOR</b>	<i>How Many?</i>	<i>carried over from prior year?</i>	<i>will be carried over to the next year?</i>
2.4a		<i>The number of safe and affordable housing units for individuals with low income created, improved or maintained. (do not include housing units that are only weatherized in this indicator)</i>			
2.4b		<i>The number of housing units that are weatherized.</i>			
2.4c		<i>The number of accessible and affordable health care facilities created, expanded or maintained</i>			
	Blank line				

2.5	<p><b>SOCIAL ASSETS</b> - These assets establish well-functioning social interactions (e.g., public safety).  <i>Assets, in this area, include things that are not physical but rather are services. Eg: not the health care facility, but a health care service such as a community health program that does home visits. Transportation routes or private taxi services would be reported here, but private auto acquisition would be reported in Goal One. Education or skills development programs are reported in 2.1 above and recreation programs in 2.3 - do not duplicate here.</i></p>				
CSBG § support this ?	In this column, describe the services that led to the outcome.	<b>OUTCOME INDICATOR</b>	How Many?	carried over from prior year?	will be carried over to the next year?
2.5a		The number of transportation resources, including public or private transportation created, expanded or maintained.			
2.5b		The number of health care services created, expanded or maintained			
2.5c		The number of services related to crime reduction and public safety are created, expanded or maintained			
	Blank line
