

NASCSP – NREL Template

- Indiana's Approach
 - **Plan A**
 - Intended to develop own tool
 - **Plan B**
 - NREL announced their template
 - Upon viewing early sample of template Indiana decided to pursue that method for delivery
 - **Plan C**
 - Hopefully will not be needed

NASCSP – NREL Template

- **Implementation**

- Trainers at INCAA began aligning field guide and SWS

- Taking specification in SWS and pulling appropriate field guide information and adding to the SWS specification
- Working to identify pictures, text, and forms from field guide to match each specification
- Reviewing updates for correctness and State approval where necessary
- INCAA working with NREL in early development of template

NASCSP – NREL Template

- **Template Usage from rollout to present**
 - Examples for today's presentation
 - Working to create aligned document
 - Attempting to learn functions and usage issues

NASCSP – NREL Template

- **Issues so far...**
 - Learned site not viewable for everyone
 - Only those with editing privileges
 - Being worked on at this time
 - Site Unavailable – Not recognizing INCAA's website
 - Time to figure out how system works
 - Copy and paste from field guide can be challenging
 - Need to change formatting to match templates
 - Some wording not compatible – language indicating pulling smoke under door needed changed – took some time to figure out the issue

NASCSP – NREL Template

- **Issues so far continued...**
 - Text can be lost during editing
 - Experimented with “Rich Text” and lost text
 - Pictures placed in the examples will not delete
 - Expected to take a good deal of time to complete process

NASCSP – NREL Template

- **Examples of where Indiana hopes to go**
