The U.S. Department of Energy’s Weatherization National Recognition Program serves to identify individuals and organizations at the Grantee or subgrantee level that consistently demonstrate Program commitment and, through their initiative, make a significant contribution toward service delivery within the Weatherization network.

Please nominate an **individual or group** you feel should be recognized for contributions to the Weatherization Assistance Program. While nominations are not limited to this, individuals or groups that have gone above and beyond to ensure the success of implementing The American Recovery and Reinvestment Act of 2009 deserve to be recognized.

Check the box next to each statement that best describes how relevant the information is to the nominee. Note that not all questions may be applicable to every nominee. Then, provide examples to support the rating. Additional information can be included on a separate sheet of paper and submitted with the nominating ballot.

1. The nominee has developed and implemented innovative ideas to increase energy savings, reduce costs, and/or ensure the health and safety of workers and clients.

   Example(s):

2. The nominee has continuously incorporated new technology into the Program to simplify and improve the delivery of weatherization services.

   Example(s):
3. The nominee has created new methods to provide effective technical training to the program’s next generation of weatherization crews and contractors.

Example(s):

4. The nominee’s dedication to their job and to Weatherization clients is well known and respected by the Weatherization community.

Example(s):

5. The nominee has performed quality work efficiently while working as a team with managers, colleagues, and clients.

Example(s):

6. What extraordinary circumstances has the nominee encountered in course of performing his/her duties?

7. If there is other information that has not been addressed in the previous questions, please include it here.

Thank you for your nomination!
