CSBG Organizational Standards

State Assessment Template

Issued in January 2015, IM 138 addressed the implementation of the CSBG Organizational Standards across the CSBG Network. Implementation will impact State CSBG Lead Agencies, CSBG Eligible Entities/Community Action Agencies (CAAs), Federal Office of Community Services, State Associations, and National CSBG Partners. This tool addressed the needs of the State CSBG Lead Agencies for ongoing assessment

As part of CSBG Organizational Standards implementation, State CSBG Lead Agencies will need to:

- Project how many CAAs will meet the CSBG Organizational Standards each year as part of their CSBG State Plan;
- Assess all CAAs against the Organizational Standards each year;
- Ensure Technical Assistance Plans (TAP) are in place for CAAs not meeting Organizational Standards;
- Ensure Quality Improvement Plans (QIP) are in place for CAAs with serious issues as described in IM 116: and
- Report on the percentage of CAAs meeting 100% of the Standards each year in the Annual Report.

For states that currently monitor annually, an annual assessment of the Organizational Standards will align with the existing monitoring calendar. For others, assessing CAAs in the years without onsite monitoring may pose unique challenges. IM 138 recognizes this and provides states flexibility in how they assess CAAs along the CSBG Organizational Standards. Some potential options for states include:

- CAA Self-assessments with 3rd party verification such as a consultant;
- CAA Self-assessment with State Association verification; and
- CAA Self-assessment with State CSBG Lead Agency desk audit verification.

While the block grant nature of CSBG allow for State CSBG Lead Agencies, CAAs, and Community Action State Associations work together to define what is meant in each State by meeting each of the Organizational Standards, the requirement for annual assessment remains.

The following guidance and template is provided as an option for State CSBG Lead Agencies to consider in developing their assessment strategy.

Assessment Cover Letter Template (for years where onsite State monitoring is NOT Planned)

Dear CAA:

As you are aware, through the _____ State Plan our state adopted the COE-Developed CSBG Organizational Standards, which establish a set of 58 individual standards for private CAAs and 50 standards for public CAAs in nine categories focused on Maximum Feasible Participation, Vision and Leadership, and Operations and Accountability. Each CSBG Eligible Entity (CAA) is required to be assessed annually to ensure that all Standards are met.

This year, your CAA is not scheduled to receive an on-site state monitoring visit. In order to assess your CAA in light of the CSG Organizational Standards, we will be asking you to complete an agency self-assessment and

Please complete the CSBG Organizational Standards Self-Assessment Tool and return it to _____ no later than _____.

Please send/upload the Document Packet or any updates to the Document Packet on file to _____ no later than _____.

The completed self-assessment will then be sent to _____ for verification

...OR... The completed self-assessment will be verified by _____

For any unmet Standards, please complete a Technical Assistance Plan (TAP) and send it to _____ no later than _____.

CCSBG Eligible Entity needs to complete this assessment by _____ and email it to their State CSBG Office primary contact.

For each standard, check the box stating the standard is Met or Not Met. Note the page number of the Documentation Packet submitted along with the assessment form for those standards that are noted as “met.”

For the *Documentation Packet*, please order the attachments, number the pages, and submit along with a Table of Contents. Note that some documents may be used to demonstrate the meeting of multiple standards.

For those standards that are not met, please include a Technical Assistance Plan based on the template provided by your State CSBG Office or found here ([link to TAP](#)). Upon receipt, the State CSBG Office will send a confirmation email that the assessment has been received.

If preferred, State CSBG offices may schedule a conference call or web meeting with the CAA to review the Assessment Tool and Documentation Packet in addition to the online submission.

The State CSBG Office will have review the self-assessment and proposed TAP for standards not met. CSBG Eligible Entities may implement the proposed TAP while awaiting state approval or wait until the plan is approved.

CSBG Organizational Standards-Self Assessment

Sample Documentation Packet

The Documentation Packet is compiled by local CAAs as they collect information annually to demonstrate they meet the CSBG Organizational Standards. For many CAAs, the assessment of Organizational Standards will occur as part of regular monitoring by the State CSBG Lead Agency and occur on site annually. For others, the State CSBG lead Agency conducts on site monitoring less frequently, biannually or triennially. A challenge for States and CAAs that do not conduct annual monitoring is the requirement for CAAs to demonstrate they meet the Standards annually and for the State CSBG Office to annually report the number of CAAs meeting Standards.

To meet this challenge, CAAs and State CSBG Lead Agencies will develop a process that meets the needs in that State. Tools and resources are available from the Organizational Standards Center of Excellence (OSCOE) to assist CAAs and States to meet this challenge in ways that are not overly burdensome. This tool focuses on capturing and filing the documentation necessary to demonstrate how a CAA meets each Standards. This tool and others can be found at www.communityactionpartnership.com.

CAAs will need to demonstrate they meet all Standards annually. Many individual Standards require action on an annual basis, while others do so on a biannual, triennial, or even five year span. There will be materials local CAAs will need to collect that may not change over a five year period (e.g. bylaws, strategic plan). In addition, there will be documents that will need to be collected that may be created monthly (e.g. board minutes). There are certain documents that will be used to demonstrate the CAA meets multiple Standards. This tool is provided to be a guide to help CAAs and State CSBG Lead Agencies think about how to collect, store, and report needed materials over time, limiting duplication of effort. It frames the collection of materials under the title of “Documentation Packet”.

A CAA’s Documentation Packet may be:

- **Hard copy or electronic (or a blend).** Some CAAs may prefer to have a binder, file folder, banker’s box, or other hard copy system for collecting and storing the documents. Others may prefer electronic documents. In some cases, CAAs may use a mix of both options.
- **Stored at the CAA, State CSBG Lead Agency, in the “cloud”, on in some other document sharing environment;** Depending on the system established, the Documentation Packet may be stored at the CAA for access during onsite monitoring, at the State Office for desk audits, or in an online file sharing/storage system accessible to both and even perhaps third parties.
- **Formally updated periodically or as part of the annual assessment process.** Some CAAs may choose to update the Documentation Packet monthly as new materials are developed or may choose to select a single time each year they update the packet.
- **Spread across multiple years.** Some documents may be submitted in the initial Documentation Packet and may not need to be updated for two to four years. CAAs and

States may agree that once a document is submitted as a prior year's Documentation Packet item, it does not need to be re-submitted until it needs to be updated.

In years when the State CSBG Lead Agency conducts on site monitoring, the Documentation Packet may be used on during those meetings in combination with other monitoring tools, such as interviews, to determine if Standards are met. In years where the state CSBG office is not scheduled to conduct onsite monitoring, CAAs may need to conduct a Self-Assessment and the Documentation Packet may be used to assist the State CSBG Lead Agency or other third party to verify if Standards were met. In this scenario, the State CSBG Lead Agency or other third party conduct a “*desk audit*” of the Standards. The sample Documentation Packet is designed to assist the CAA and State CSBG Office with compiling documentation.

Directions for Creating the Documentation Packet

1. Identify the documents used to demonstrate meeting each Standards as the Self-Assessment is completed.
2. Note on the documents the portion(s) to be referenced. Consider using notes, highlighting, post it notes, etc. to make it easy to see which elements are being referred to.
3. Identify those documents that are used to demonstrate meeting more than one Standard.
4. Identify those documents that will not change prior to the following year's Self-Assessment or on-site monitoring.
5. Organize and number the pages of the Documentation Packet. If developing an electronic Documentation Packet, establish a consistent and easy to understand naming convention for documents.
6. Create a detailed Table of Contents.

Directions for Using the Documentation Packet

1. Complete the Self-Assessment noting the page number from the Documentation Packet that has the document necessary to demonstrate that each Standard is “Met”.
2. For years following the initial compilation, assess the tools that are currently on file in previous Documentation Packets, and reference previously submitted Packets as needed and as approved by the State CSBG Lead Agency.
3. Submit Self-Assessment and Documentation Packet through the process determined by the State CSBG Led Agency.
