**Refreshments will be served**

This event is hosted by the SC Association of Community Action Partnerships, Inc. which provides statewide outreach and education for the American Recovery and Reinvestment Act of 2009 (ARRA) Weatherization Assistance Program (WAP) on behalf of the Local Community Action Agencies that implement the WAP in their local communities.

**Purpose:**

The SC Community Action Agencies ARRA Weatherization Assistance Program is designed to assist low-income households in reducing their fuel costs and to contribute to national energy conservation through increased energy efficiency and consumer education.

**Benefit:**

Weatherization measures provided by this program will reduce heat loss and energy costs by improving the thermal efficiency of dwelling units occupied by low-income households.

ARRA Weatherization Directors from across the State will be available to share important information for reducing the cost of energy and making homes more energy efficient.

Come and gain information and networking opportunities to share with the clients you serve regarding this program, which is available to them free of charge if they qualify.

This event is funded in part by the American Recovery and Reinvestment Act of 2009 Weatherization Assistance Program through the Governor's Office of Economic Opportunity.
