Each Module will be a separate form within OLDC

# What will SmartForms cost?

- SmartForms will be available to all States and agencies for **FREE**

# What are SmartForms? The Do's

- An Excel document that can:
  - Alert the user to data entered that is potentially wrong/fat-fingered/otherwise entered in error (i.e. when a field is left blank or participants served is less than those achieving the result)
  - Alert the user when they've entered bad data (i.e. negative numbers, letters, exceed character limits, etc.)
  - Highlight cells, make a noise, and provide an error message to alert the user to potential errors
  - Leave unaddressed/unchanged data highlighted red or yellow based on the type of issue (error or warning) so the state can follow-up with the agency
  - Offer a place for agencies and states to reconcile data before it is submitted into OLDC

# What are SmartForms? The Don'ts

- The SmartForm **will not be able to:**

- Compare different sections of each module to each other (i.e. employment FNPIs to the All Characteristics)
- Compare different Modules to each other (i.e. the CSBG allocation reported in Module 2 to the CSBG allocation reported in Module 1)
- Ensure agencies address errors that are identified
- Ensure that if an agency submits the form with errors to the state that the data is in fact correct
- Ensure that an agency include clear, discernable comments on their data in the SmartForm
- Ensure the state review the SmartForm and get information they need from the agency
- Ensure capacity exists at both the local and state level to review the data

Section A: Allocated Resources per CSBG Eligible Entity

Instructional Notes

Section A: CSBG Expenditures by CSBG Eligible Entity Data Entry Form meets the Congressional requirement for an explanation of the total amount of CSBG funding expended during the reporting period (identified below) based on categories referenced in the CSBG Act.

CSBG funding expended during the reporting period should be identified in the domain that best reflects the services delivered and strategies implemented, as well as the administrative costs associated with the domains. Further instructions will be provided, but please keep the following in mind, per domain:

**Services Supporting Multiple Domains:** Expenditures reported under Services Supporting Multiple Domains are those that span or support outcomes achieved across multiple domains for families and individuals, such as case management, transportation, and childcare.

**Linkages:** Many of the activities that were associated with Linkages are now captured in Domain 8: Agency Capacity Building. This narrows the definition of Linkages, but continues to include community initiatives and information and referral calls.

**Agency Capacity Building:** Expenditures for Agency Capacity Building are detailed in Table B on this form.

**Reporting on Administration:** Administrative costs for CSBG reporting are defined by the Office of Community Services as equivalent to typical indirect costs or overhead. As distinguished from program administration or management expenditures that qualify as direct costs, administrative costs refer to central executive functions that do not directly support a specific project or service.

# Process – Review: Module 1

- This will be the third submission of Module 1.
- There will be a review process completed by OCS that will assess the **clarity** and **completeness** of the data to ensure accuracy.
- Review will also focus on **continuous improvement**.

# Process – Review: Modules 2 and 4

- We recognize that this is the first year of submission of Modules 2-4 and that we are receiving **baseline data**
- Only a **select few data points** can be **compared** to the previous year and they are located in **Module 2 only**
- There will be a review process completed by OCS and NASCSP that will assess the **completeness** and **reasonableness** of the data to ensure accuracy.
- It **will not be as in depth** of a review as with the IS since this is baseline data.

# Process – Review: Module 2 – 4

- Completeness of data:
  - Did the agency complete the forms?
    - Is a demographics form completed?
    - Are CSBG expenditures reported?
    - Are any services reported?
    - Are any FNPIs reported?
- Reasonableness of the data:
  - Does the data reported make sense?
    - Are more people reported to have obtained a job than total people served in the demographics?
    - If the indicators that are specific to seniors have data, are seniors reported in the Demographics?
    - In Module 2, are there significant changes in any one funding source?

# Process – Review: Module 3

- OCS and NASCSP will review each Module 3 submission using the Module 3 Review tool.
  - Module 3 Review tool was developed with the help of the Module 3 pilot and reviewed by the CSBG DATA Task Force.

# Process – Review: Federal Review Process

- Starting May 1, 2019 – feedback will be sent to states within 60 days starting May 1, 2019
- **Joint review** will be sent for the CSBG Annual Report from your OCS program Specialist
  - OCS and NASCSP will coordinate
- More details will be forthcoming as part of the continuous improvement efforts

# Performance Management Website

- OCS Website that will highlight CSBG data
- Only state-level aggregate data will be made public on the website
- States will have access to a “private” side of the website to pull reports and view their data
  - Note: Updates to data need to be made through OLDC
- In the first year, only Module 1 and State Plan information will be available on the website

## Welcome to the CSBG Performance Management Website!

This federal website provides information, resources, and a comprehensive Data Warehouse for CSBG grantees, Eligible Entities, policymakers, and the public to access performance management information and performance measurement data for the Community Services Block Grant program. The Performance Management website will help the CSBG network increase accountability and achieve results through the understanding and use of data.

## Generate Reports and Analyze Data

The [CSBG Data Warehouse](#) contains performance measure data reported by grantees to the Office of Community Services. Through the Data Warehouse, users can generate reports and analyze data to learn about characteristics and outcomes of individual states and the national program.

As new performance measures are reported by CSBG grantees over the next year, the Data Warehouse will be expanded to provide further detail on individual and community outcomes being achieved across the country.

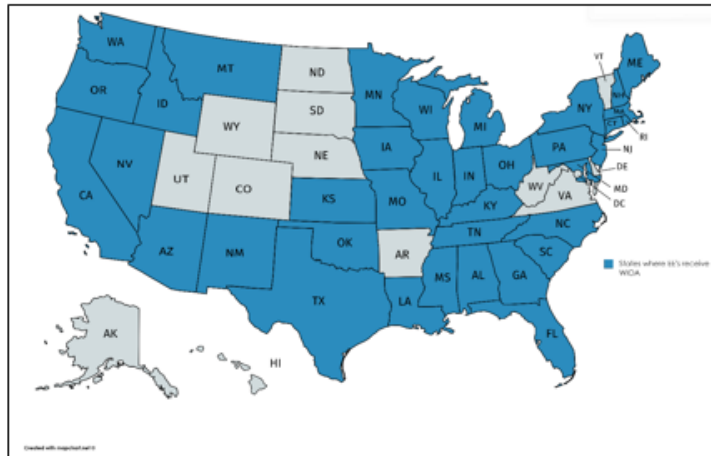

# Example Dashboard

## WIOA Dashboard - National

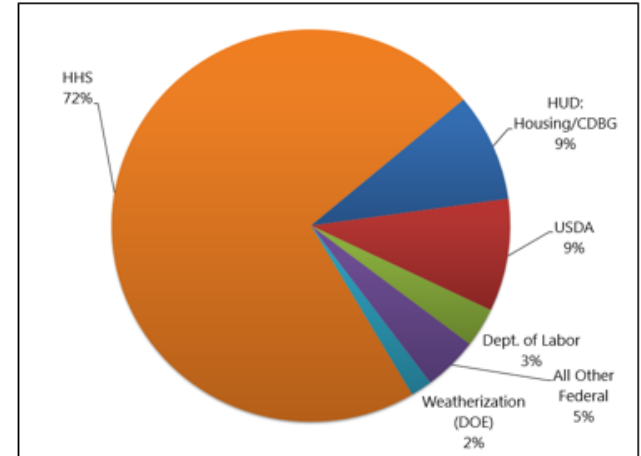

-14 states included employment and training activities in their CSBG State Plan as part of a WIOA combined state plan

-\$207,019,935 of WIOA funding was available to the CSBG Network in FY16

Nationally, 18.5% of CSBG Elible Entities Receive WIOA Funding, operating programs in 40 different states

Federal Sources of Funding Received by CSBG Eligible Entities, DOL is 3% of overall funding

# Tools and Resources

# Keep an eye out for:

- Updates to the instruction manual
- CSBG Annual Report Lexicon
- Data Dictionary for developers/IT staff
- Toolkit for developing an RFP for technology procurement
- SmartForms for Modules 2-4
- XML Schema

## Annual Report

The Office of Community Services (OCS) received OMB approval for a new CSBG Annual Report on January 12, 2017. Additional information about the implementation of the CSBG Annual Report is detailed in IM 152 CSBG Annual Report, released by OCS on January 20, 2017. The new CSBG Annual Report will eventually replace the CSBG IS Survey. The new report will be implemented through a phased-in approach over two years. OCS released Action Transmittal 2017-01 on the Submission of Module 1 of the CSBG Annual Report for Fiscal Year (FY) 2016. This Action Transmittal provided a one time extension for submitting Module 1 in OLDC from March 31, 2017 to April 7, 2017. The due date for submission of the CSBG IS to NASCSP was also extended to April 7, 2017.

### CSBG Annual Report Implementation: Two Phases
