WEATHERIZATION PROGRAM NOTICE 19-6
EFFECTIVE DATE: September 9, 2019

**SUBJECT: U.S. DEPARTMENT OF ENERGY GUIDANCE FOR COMPLETING
RECIPIENTS' ANNUAL HISTORIC PRESERVATION REPORT**

INTENDED AUDIENCE: Weatherization Grantee Program Managers, Weatherization Subgrantee Program Managers

PURPOSE: To provide clarification concerning the content of Grantee responses to each section of the Historic Preservation Report under the Department of Energy (DOE) Weatherization Assistance Program (WAP).

SCOPE: The provisions of this Guidance apply to all Grantees applying for financial assistance under DOE's WAP.

LEGAL AUTHORITY: Title IV, Energy Conservation and Production Act, as amended, authorizes the DOE to administer the WAP. (42 U.S.C. § 6861, *et. seq.*) All grant awards made under this Program shall comply with applicable law and regulations including the WAP regulations contained in [Code of Federal Regulations \(CFR\) Title 10, Chapter II, Subchapter D, Part 440](#).

BACKGROUND: The U.S. Department of Energy's (DOE) Weatherization Assistance Program (WAP), State Energy Program (SEP), and Energy Efficiency and Conservation Block Grant (EECBG) recipients are required, in accordance with their award terms and conditions, to provide information regarding their Section 106 compliance in an annual Historic Preservation Report. The purpose of this Guidance is to provide those recipients with clarification concerning the content of their responses to each section of the report. The following questions and format follow the current Historic Preservation Report configuration and provide guidance for its proper completion.

GUIDANCE: In 2010, as the result of unprecedented funding and projects instituted under the American Recovery and Reinvestment Act (the Recovery Act), the DOE, Advisory Council on Historic Preservation (ACHP), and National Conference of State Historic Preservation Officers (NCSHPO) developed a first-of-its-kind Prototype Programmatic Agreement (Prototype PA). The intent of the Prototype PA was to provide DOE's WAP, SEP, and EECBG recipients with a streamlined method for complying with

DOE's responsibilities under Section 106 of the National Historic Preservation Act. Using DOE's approved Prototype PA, as of May 31, 2019, 47 States and U.S. Territories have U.S. DOE-executed Historic Preservation PAs, which establish categories of exempt activities and processes for otherwise complying with Section 106 requirements.

Recipients can review U.S. DOE-executed Historic Preservation PAs at: <https://www.energy.gov/eere/wipo/historic-preservation-executed-programmatic-agreements>.
