

Tuesday 1:45 – 4:30 pm / Round Robin Discussions
Intro to ASHRAE
Paul Francisco, University of Illinois

- 1) How familiar is everyone here with ASHRAE and WAP?
- 2) What issues are you running into related to ASHRAE in your state?
- 3) How does 62.2 apply to single-family attached units?
- 4) How does 62.2 apply to multifamily units?
- 5) Are there options besides exhaust?
- 6) Are there kitchen range hood fans that would be suitable?
- 7) How do you determine fan size at audit when the size depends on the post-weatherization blower door reading?
- 8) Should the QCI adjust the fan setting?
- 9) What client education tools do people use?
