

## CSBG Disaster Relief Supplemental Funds Preliminary Allocation Formula

The Additional Supplemental Appropriations for Disaster Relief Act, 2019 [Public Law (P.L.) 116-20] provided \$25 million in additional funds to the Community Services Block Grant (CSBG) program to address disaster recovery due to the consequences of Hurricanes Florence and Michael, Typhoon Mangkhut, Super Typhoon Yutu, and wildfires and earthquakes occurring in calendar year 2018 and tornadoes and floods occurring in calendar year 2019 in those areas for which a Presidential disaster has been declared.

The Office of Community Services (OCS) will allocate funds to states, territories and tribes based on Federal Emergency Management Agency (FEMA) Individual Assistance (IA) data which lists the number of households that have registered for IA assistance and provides a common comparative data point for all states. Each state will be eligible for a proportionate share of \$25 million based on its percentage of IA registrants.

Funds will be released in three stages:

- States with a total proportionate share of less than \$100K may apply to receive their full available amount in **Stage 1**. All remaining states may apply for up to \$100K to be used for planning and start-up activities.
- States with a total proportionate share of less than \$200K may apply to receive all remaining funds in **Stage 2**. All remaining states will receive a pro-rated share with the expectation that OCS will release a cumulative total of \$15 million.
- States with a proportionate share of more than \$200K may apply for all remaining funds in **Stage 3** and must fully expend all funds by September 30, 2022.

**Authority:** Additional Supplemental Appropriations for Disaster Relief Act, 2019, P.L. 116-20

**Current Eligible States and Territories:** Alabama, Arkansas, California, Florida, Georgia, Hawaii, Iowa, Mississippi, Missouri, Nebraska, North Carolina, Northern Mariana Islands, Ohio, Oklahoma, South Carolina, South Dakota, and Texas.

**Note:** This formula is not final. Because P.L. 116-20 indicates that funding may be allocated for Presidentially-declared disasters in 2018 and 2019, it is possible that new disasters may occur in the remainder of 2019. In addition, new IA registrations for recent disasters may affect each state's share of funding. OCS is providing preliminary allocation numbers as of November 11, 2019.
