WAP Memorandum 069

REPLY TO

ATTN OF:  Erica Burrin, Weatherization Assistance Program, Program Manager
Weatherization and Intergovernmental Program Office

SUBJECT: Program Year (PY) 2020 Weatherization Assistance Program Draft Application Package

TO: Weatherization Assistance Program Grantees

In anticipation of the Fiscal Year (FY) 2021 federal budget, the Department of Energy's (DOE) Weatherization Assistance Program (WAP) is providing *draft* application instruction documents to WAP Grantees to aid in the preliminary stages of development and submission of PY 2021 State Plans. This draft is being made available to give Grantees the opportunity to begin the planning process while DOE undertakes internal actions and reviews necessary for the final release.

In making this draft available so early in the process, DOE aims to ensure there is ample time for Grantees to engage Subgrantees in the development of the 2021 plan. Grantees should note, while a Continuing Resolution (CR) is anticipated for planning purposes, until a final full year FY 2021 budget is passed and signed by the President, Grantees should develop their Grantee Plans using the same funding level as the DOE 2020 Appropriated Funds outlined in WPN 20-2.

For planning purposes, the following is the anticipated timeline for the final release:

- August 24 – The Weatherization Program Notice (WPN) 21-1, PY 2020 Application Package, ALRD are released in *draft* form via this WAP Memorandum.
- November 30 (tentative release) – Final version of WPN 21-1, PY 2021 Application Package, ALRD, and WPN 21-2 Grantee Allocations

If you have questions regarding the information in this Memorandum, please contact your DOE Project Officer.
