7.3. Distribution Process: Describe the specific steps in the state’s process for distributing 90 percent funds to the eligible entities and include the number of days each step is expected to take. Please include information about state legislative approval or other types of administrative approval (such as approval by a board or commission). [Ninety percent (90%) of the CSBG funds allotted to the State will be allocated to CSBG eligible entities based on the established formula. CEEs will have 30 days to complete and submit their application. The State will then review applications for completeness within 30 days. Once an application is approved, the State will issue a Grant Agreement and award notification to the CEE based on the level of funding received from ACF at that time. Grant Agreements are distributed and executed prior to the start of the program year. Typically, the first award notice will represent the first quarter of funding made available to the State by the U.S. Administration for Children and Families. The State will not permit an entity to spend multiple allotments simultaneously. The distribution formula will be updated as new poverty data becomes available.]

7.3a. Distribution Method: Select the option below that best describes the distribution method the state uses to issue CSBG funds to eligible entities:

- ☐ Reimbursement
- ☐ Advance
- ☒ Hybrid
- ☐ Other

7.4. Distribution Timeframe: Does the state intend to make funds available to eligible entities no later than 30 calendar days after OCS distributes the federal award?
[No]

7.4a. Distribution Consistency: If no, describe state procedures to ensure funds are made available to eligible entities consistently and without interruption. [This actually depends on when funds are made available to the State in relation to the start of the CSBG program year in WV, which is January 1. Once the State receives its Federal award letter, the CSBG Administrator provides a copy to the State fiscal office to set up the Federal award in the state accounting system OASIS, and notifies Eligible Entities of the award amount. West Virginia operates its CSBG program on a calendar year of January 1 through December 31, which means funding is delayed by 3 months. Since CSBG grants are two-year grants, this practice does not impede eligible entities from being able to draw down CSBG funds since they will be spending their 4th quarter allocation from October-December. Due to the uncertainty of when Federal awards will be received, this method allows the eligible entities to better plan program expenditures and allows for consistent grant start dates from year to year. This process ensures that funds are provided upon request and without interruption. CSBG Eligible Entities apply for funding through an application process during October based on estimated award amounts. Applications are reviewed by the State office during November, and Grant Agreements and 1st quarter award notices are sent out in December for a January 1 start date. To ensure all funds are expended by the program completion date, the State works closely with agencies that are still spending carry-over funds after the 12th month of program operations. If needed, the State will approve a formal request from an eligible entity to extend the period of the grant beyond 12 months. Extensions will be granted in 3 month increments until all funds are spent. Agencies are not permitted to spend a new award until all previous year funds are completely spent. If an extension is needed, an agency must request a no-cost, time extension in the 11th month of the current program year in order to carry-over funds.]

7.5. Distribution of Funds Performance Management Adjustment: Describe the state's strategy for improving grant and/or contract administration procedures under this State Plan as compared to past plans. Any improvements should be based on analysis of past performance and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the state is not making any improvements, provide further detail. [ACSI scores and communication with eligible entities indicate high satisfaction with the state's grant administration procedures. The state intends to continue procedures that are in place which consist of requiring eligible entity submission of applications and community action plans in October of each year. Applications are submitted electronically through the State of West Virginia wvOASIS Vendor Self-serve portal. Applications are reviewed by program managers, evaluated, and routed to Agency Level 2 for consideration before routing to the Governor's office for review and approval. Once approved, grants are generated electronically, and grant agreements are completed and routed for signature by the state office and eligible entities. This process is completed prior to the start of the CSBG programmatic year which operated from January 1st through December 31st.]

If the state is not making any adjustments, provide further detail. [The State is making minimal adjustments to the use of remainder/discretionary funds under this State Plan as compared to the most recent plan. Adjustments include reducing the amount of individual TTA grants to CEEs and shifting those funds to the State Association who is facilitating most of the statewide training and technical assistance. The State has also added about 33k into the Other activities category based on recommendations by the CEEs to have funds available to provide in emergency situations that may arise that would be unexpected.]

- 8.1 b. Training and Technical Assistance Collaboration:** Describe how the state will collaborate with the State Association and other stakeholders in the planning and delivery of training and technical assistance. [The state works collaboratively with the WV Community Action Partnership to prepare and distribute an annual training and technical assistance needs survey to each CEE. Once the survey results are received, the state office and Association then work together to determine high-priority needs, and prepare a training and technical assistance plan for the upcoming program year. We have plans to adjust the timing of the needs survey and planning process to have a completed T&TA plan prior to the submission of the CSBG State Plan in order to better complete this section of the plan. The state and Association work closely together to plan and deliver training to CEEs throughout the year. The Association received CSBG discretionary funds to assist with the provision of state-wide training.]

- 8.2. Organizational Standards Technical Assistance:** Does the state have Technical Assistance Plans (TAPs) in place for all eligible entities with unmet organizational standards, if appropriate? [Yes]

Note: 8.2 is associated with State Accountability Measure 6Sb. The state should put a TAP in place to support eligible entities with one or more unmet organizational standards.

8.2a. Address Unmet Organizational Standards: Describe the state's plan to provide T/TA to eligible entities to ensure they address unmet Organizational Standards. [The state developed a CSBG Organizational Standards Quick Reference Guide to assist CEEs in knowing how to document compliance with the standards. The State is making changes with this State Plan on monitoring procedures in which a comprehensive review of Organizational Standards by the State Office will occur as part of the bi-annual CSBG Comprehensive Monitoring. Any unmet standards noted in a monitoring report will be addressed through a TAP or QIP. The State will work with the State Association to review a list of unmet standards at least annually to determine if there is a trend in unmet standards that would prompt a need for statewide training or technical assistance to address concerns.]

If the state is not making any adjustments, provide further detail. [The State office is making minimal adjustments to this plan compared to the last state plan. The State office is working with the State Association, and R3PIC to coordinate technical assistance with the implementation of our joint TTA Plan. Moving forward, information from the most recent available ACSI will be considered when setting priorities for the administration of CSBG in cooperation with the CEEs and the State Association. A training and technical assistance survey was completed by the State Association in the summer of 2023 to assist in the development of the joint WV TTA Plan for PY2023. The State Association assesses training needs and works with the State Office to develop and coordinate training and technical assistance. In 2022, the State Association procured a Learning Management System

that will be utilized to enroll and track the progress of online and in-person training opportunities across the CEE network in WV. A primary focus of the LMS is to provide regular, consistent board training opportunities to all CEE boards in WV. The LMS will be further developed and implemented throughout 2024 and 2025.]

[The State plans to create and maintain partnerships with governmental and other social services, especially antipoverty programs, to assure the effective delivery of and coordination of CSBG services to low-income people and communities and avoid duplication of services (as required by assurances under Sections 676(b)(5) and (b)(6)). The State maintains an active partnership with the West Virginia Community Action Partnership, the West Virginia Coalition to End Homelessness. The state office is a member of the Workforce WV Inter-agency Collaborative Team, and has encouraged communication between local Workforce Investment Boards and CEEs to engage one another and execute formal MOUs for the provision of employment related training and support services across the state. The State also participates on an HMIS (Homeless Management Information System) steering committee made up of representatives from all four WV

Continuums of Care, and a representative from the State CSBG/ESG office to promote collaboration and data sharing. The state office partners and collaborates with the WV Office of Energy through their annual conference and periodic meetings. The state works closely with the WV Department of Health and Human Resources which administers LIHEAP for WV. The primary focus of that collaboration is centered around provision of Weatherization services and emergency repair and replacement of heating systems for vulnerable citizens in WV. These program services are provided by WV CEEs.]

9.3. Eligible Entity Linkages and Coordination

9.3a. State Assurance of Eligible Entity Linkages and Coordination: Describe how the state will assure that eligible entities will partner and collaborate with public and private sector organizations to assure the effective delivery and coordination of CSBG services to low-income people and communities and avoid duplication of services (as required by the assurance under Section 676(b)(5)). [The State will assure that the eligible entities will coordinate and establish linkages to assure the effective delivery of and coordination of CSBG services to low-income people and communities and avoid duplication of services (as required by the assurance under Section 676(b)(5)). CSBG eligible entities operate within a network of local service providers to reduce duplication of effort and to coordinate resources to address various client circumstances. CSBG eligible entities have developed extensive information and referral networks and/or one stop service centers to meet the many needs of customers seeking services. Eligible entities partner with other public and private resources to provide a complete range of services for individuals, families, and communities. WV CEEs are required to include (as part of the Community Action Plan) a list of community partners collaborating on each of the entity's programs. WV CEEs report significant leveraging of non-Community Service Block Grant Funds to meet identified community needs. The state CSBG network is working collaboratively across the network to expand the access to services to low-income individuals by making a Mobile phone application available in which individuals can apply directly for services without having to travel to an office. The state is working to bring as many services providers and funders on board in the state as possible. The State recognizes barriers within the variety of state assistance programs where different state agencies administer programs. While the CSBG State Office strives to streamline intake and data collections processes for low-income individuals, collaboration with other state programs proves to be difficult in regard to data collection and reporting. Many state agencies have existing data systems and due to state procurement rules, its nearly impossible to streamline those processes across state agencies. The CSBG State Office hopes to pursue state administrators with plans to coordinate efforts as much as possible and offer a solution to these barriers.]

9.3b. State Assurance of Eligible Entity Linkages to Fill Service Gaps: Describe how the eligible entities will develop linkages to fill identified gaps in the services, through the provision of information, referrals, case management, and follow-up consultations, according to the assurance under Section 676(b)(3)(B) of the CSBG Act. [The eligible entities will develop linkages to fill identified gaps in the services, through the provision of information, referrals, case management, and follow-up consultations, according to the assurance under Section 676(b)(3)(B) of the CSBG Act. Through linkages established within the service areas of programs operated by CEEs, individuals and families can be connected to an array of local programs and services to meet the needs of family members. A condition of continued receipt of CSBG funds each year is the submission of an annual CSBG Application which includes information on programs which assist low-income individuals and includes the entities follow-up mechanisms.

CSBG eligible entities are encouraged to provide appropriate case management services including an assessment of the households needs and a plan of action to meet the needs and regular follow-up to ensure that clients are making progress in meeting established goals. Each CSBG eligible entity includes a description of how the entity coordinates and mobilizes public and private resources to affect maximum leveraging for CSBG funds.

CSBG funds provide support that enables CSBG eligible entities to operate an array of anti-poverty and social service programs. Coordination of public and private funding takes place at the local level in a variety of ways suited to the individual community and available resources. CSBG eligible entity staff and/or administrators meet with other providers in the service area to determine how best to not duplicate services while providing the services needed to meet the emergency needs of low-income persons and establishing/improving programs which assist low-income persons to transition out of poverty.]

Under the WIA program WV law established an Interagency Collaborative Team comprised of the mandated partners under WIA. The State is continuing the group through WIOA. The State has reached out to this group to participate and present information about CSBG and how the programs can work together to improve employment outcomes and training activities in the State of WV. The Workforce ICT meets on the last Thursday of each month. The State office will continue to participate and educate the partners about the activities and purposes of CSBG. The State CSBG office is not the direct recipient of LIHEAP funding. The WV Department of Health and Human Resources (DHHR) Low-Income Home Energy Assistance Program (LIHEAP) allows West Virginia Weatherization Assistance Program Subrecipients the administration of an Energy Crisis Intervention Program (ECIP). The ECIP program is designed to aid households in need of emergency heat due to non-existent, non-operable, severely malfunctioning, unsafe, or severely inadequate heat during the winter months, from November 1 to March 15. The State office worked with the WVDHHR to develop an additional program funding by LIHEAP called the Emergency Repair and Replacement Program, which is designed to respond to no heat emergencies, as well as situations where cooling would be a necessity for elderly, small children, and individuals with health-related issues. The program is administered by CEEs in WV since the WV Department of Health and Human Resources does not have a provider network capable of administering these services. The program has been very successful since 2015 and is provided by 15 of 16 WV CEEs. The program is funded at around \$8 million for FFY2023.]

While there is no Federal regulatory deadline for the review of Single Audits if no management decision is required (see Management Decisions) this review process should generally be completed within 60 days of receipt of the audit, barring any unforeseen or unusual circumstances. The review process outlined below should be followed for all subrecipients that are subject to the Single Audit Act. I. Retrieving Single Audits from the Federal Audit Clearinghouse. The Federal Audit Clearinghouse (FAC) is the official repository for all audits conducted under the Single Audit Act.

The website for the FAC is currently here:

<https://harvester.census.gov/facdissem/Main.aspx> The Federal Audit Clearinghouse should be checked at least monthly for any new subrecipient audit submissions. The audit review log (attachment A) lists due dates of when audit reports should be uploaded to the FAC based on the subrecipients fiscal year. SECTION 12: Individual and Community Income Eligibility Requirements

12.1. Required Income Eligibility: Provide the income eligibility threshold for services in the state. [Select one item below and numeric response where applicable.]

- ☒ 125% of the HHS poverty line
- ☐ X % of the HHS poverty line (fill in the threshold): Click or tap here to enter text.%
[Numeric response]
- ☐ Varies by eligible entity [Narrative, 4000 characters]

12.1a. Describe any state policy and/or procedures for income eligibility, such as treatment of income and family/household composition. [To be eligible for CSBG services or benefits, clients must be at or below 125% of the federal poverty line as defined by the U.S. Department of Health and Human Services (the HHS poverty guidelines). Eligible entities must use the most current HHS poverty guidelines when assessing income eligibility. The current guidelines are published in the Federal Register and are available on the HHS website at www.hhs.gov. The guidelines are calculated on a sliding scale based on the number of persons in a client's family. To calculate 125% of the federal poverty line, use the amount stated in the poverty guidelines relating to the number of persons in the client's household and multiply that number by 1.25. An eligible entity may, consistent with its most recent community needs assessment, give priority in providing CSBG services/benefits to clients of lower income levels within the CSBG income eligibility limit established by the state. Definition of Family/Household: For purposes of determining income eligibility, the term persons in family in the HHS poverty guidelines means persons in a household. A household includes any individual or group of individuals who are living together as one economic unit. The income of everyone in the household who is 18 years old or older must be included in determining income eligibility. In determining whether an individual is part of a household, the eligible entity may consider factors such as whether the individual pays for his/her own food and occupancy. Period to be Used for Determining Income: There is no prescribed look-back period for income assessment. Depending on an individual clients circumstances and the documentation available, it may be reasonable to calculate client income based upon the households gross income in the past 30 days (multiplied by 12) or based upon a review of the past year. (For example, if a client has become unemployed or was the victim of domestic violence and has left the abusive household within the past year, it may be inaccurate to use the data of the past year to assess income, and the use of a shorter period of

time perhaps several months may be a more appropriate and accurate assessment of the client's income. In addition, case-by-case circumstances such as seasonal employment or an isolated and temporary spike or decline in earnings may require an eligible entity to exercise reasonable discretion to determine on a case-by-case basis the most appropriate time period to review to most appropriately and accurately assess income). It is recommended that no time period shorter than the past 30 days or longer than the past year should be used, however. In exercising this reasonable discretion, the eligible entity's goal in each case should be to most accurately determine a clients actual financial position at the time of assessment. Income Verification: Before an applicant is determined to be eligible based on family income, the applicant must submit information to the program concerning the family's income. Verification must include examination of documents such as individual income tax forms, W- 2 forms, pay stubs, pay envelopes, or written statements from employers (if individual income tax forms, W-2 forms, pay stubs, or pay envelopes are not available). Applicants who claim no household income must sign a form attesting to that fact and to the accuracy of the information provided to the eligible entity. This form must also be signed by a staff member indicating that the staff member has, in good faith, attempted to verify this condition, and that the information on eligibility in the file is accurate to the best of the staff members knowledge. Income Documentation: An eligible entity must retain an eligibility determination record for each applicant for CSBG services/benefits... NOTE: Complete Income & Eligibility Policy and Procedures available upon request. (Full text will not fit here)]

- 12.2. Income Eligibility for General/Short Term Services:** Describe how the state ensures eligible entities generally verify income eligibility for those services with limited intake procedures (where individual income verification is not possible or practical). An example of these services is emergency food assistance. [The State does not address this in policy but plans to develop guidance in this area as part of a new CSBG Policy and Procedure Manual planned for release in FFY2024.]
- 12.3. Community-targeted Services:** Describe how the state ensures eligible entities' services target and benefit low-income communities for those services that provide a community-wide benefit (e.g., development of community assets/facilities, building partnerships with other organizations). [The State does not plan to address this in policy]

SECTION 13: Results Oriented Management and Accountability (ROMA) System

- 13.1. Performance Measurement System:** Identify the performance measurement system that the state and all eligible entities use, as required by Section 678E(a) of the CSBG Act and the assurance under Section 676(b)(12) of the CSBG Act. [\[Select one\]](#)

- ☒ The Results Oriented Management and Accountability (ROMA) System

- ☐ An alternative system for measuring performance and results

13.1a. ROMA Description: If ROMA was chosen in Item 13.1, describe the state's written policies, procedures, or guidance documents on ROMA. [\[The Performance Management Framework includes: 1\) Organizational standards for local CSBG eligible entities; 2\) Accountability measures for states and OCS; 3\) Results Oriented Management and Accountability \(ROMA\) Next Generation; and 4\) The CSBG Annual Report, which includes an updated and refined set of CSBG outcome measures. These elements are designed to increase accountability across all three levels of the network \(Federal, State and local\) and to enable program administrators at all levels to make better program decisions based on data. WV CEEs certify that all activities carried out with funds provided under the CSBG Grant Agreement shall report on the national Results Oriented Management and Accountability \(ROMA\) goals and national performance indicators. The ROMA System is woven into the entire design of the CSBG program in WV; from submission of annual grant applications by CEEs, to consistent data entry, documentation of services and outcomes, and regular reporting along the way. The State is partnering with the WV Community Action Partnership to lead the WV ROMA Task Force designated to guide the direction of ROMA implementation among WV CSBG eligible entities \(CEEs\). The Task Force is made up of Nationally Certified ROMA Trainers \(NCRTs\) and Nationally Certified ROMA Implementers \(NCRIIs\). Currently, 11 of 16 CEEs are represented on the Task Force. [\[The State supports the eligible entities in using the ROMA system by having 1 certified ROMA trainer on staff to provide ROMA training and technical assistance when needed. The State will also have a Nationally Certified ROMA Implementer on staff beginning in FFY 2022. The State utilizes a portion of the 5% CSBG discretionary funding to provide a statewide database system to the network that has been designed to function within the ROMA system; including the use of Logic Models, Scales and Matrices, tracking of services and results, planning and evaluation tools. The State provides regular training on the use of the data system. The State has also established a ROMA task force in cooperation with the WV Community Action Partnership that focuses on improving the ROMA system in the state for all CEEs and guiding state policy for promoting results orientation.\]](#)

Note: The activities described under Item 13.3 may include activities listed in “Section 8: Training and Technical Assistance.” If so, mention briefly, and/or cross-reference as needed. This response will also link to the corresponding assurance, Item 14.12.

- 13.4. Eligible Entity Use of Data:** Describe how the state intends to validate that the eligible entities are using data to improve service delivery. [\[As part of the CSBG Application for funding, a Community Action Plan is submitted that requires CEEs to report on their programs and where improvements need to be made. This is in combination with submission of ROMA Logic Models that provide data which is critical to a plan for improvement. The State mandates the use of an electronic statewide data reporting system that is a valuable resource of data. The system is equipped to produce regular grant reporting as well as ad hoc reporting of any data point entered the system. The State has worked with the State Association to provide training on analysis of data and is also working to hire a consultant that will work with CEEs to develop dashboards and scorecards for regular data analysis. The State has implemented changes to the state data management system that will allow for more precise and specific feedback on individual CSBG Annual Report submissions. This process began with the submission of the FFY2020 CSBG Annual Report and will be expanded to be more comprehensive and hopefully more helpful to CEEs to improve reporting.\]](#)

Community Action Plans and Needs Assessments

The data management system provides the tools and resources to deliver services across the entire state and also serves as a powerful referral tool for resources outside of community action when needed. Each eligible entity in West Virginia describes their specific approach to service delivery in their annual CSBG application through the completion of a comprehensive Community Action Plan along with supporting ROMA logic models. Each entity has the ability to tailor their service delivery system to the needs of the local community.]

15.2. Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645 (a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

- (1) By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
- (2) The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
- (3) For grantees other than individuals, Alternate I applies.
- (4) For grantees who are individuals, Alternate II applies.
- (5) Workplaces under grants, for grantees other than individuals, need to be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
- (6) Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
- (7) If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
- (8) Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Community Services Block Grant

Information Memorandum | Transmittal No. 2021-2

To: WV Community Services Block Grant Eligible Entities
From: Jennifer Ferrell, Director (WVCAD)
WV Department of Economic Development
Community Advancement and Development
Date: 09/01/2021
Subject: CSBG Monitoring Policy

Purpose:

The State Office is committed to the diligent adherence to the requirements of Section 678B (a) of the Community Services Block Grant (CSBG) Act. Monitoring is one of the most important forms of support the State Office can provide to subrecipients. While the basic obligation of monitoring is to assess compliance, the State Office also views monitoring as a continuing opportunity to learn about the subrecipient, the communities it serves, and to offer technical assistance or provide support to the entity as requested.

Procedure:

Types of State Monitoring

The State Office will conduct the following types of monitoring of CSBG subrecipients.

- a) Biannual Comprehensive Monitoring: In compliance with the CSBG Act, the State Office will conduct a comprehensive monitoring biannually. The purpose of the monitoring is to assess compliance of the eligible entity with the programmatic and fiscal requirements of the CSBG Act, as well as an assessment of the CSBG Organizational Standards. This monitoring will be conducted in accordance with the guidance provided in Information Memorandum Transmittal No. 97, dated October 10, 2006.
- b) New Eligible Entity Monitoring: An onsite review of each newly designated eligible entity is conducted immediately after the completion of the first year in which such entity receives funds through the Community Services Block Grant program.
- c) Follow-up Monitoring: Follow-up reviews will occur for subrecipients, and their programs that fail to meet the goals, standards, and requirements established by the State. If the on-site monitoring reveals serious deficiencies and/or deficiencies are not corrected in a timely manner in accordance with requirements, the State Office will conduct a follow-up on-site monitoring review and provide training and technical assistance as deemed necessary.
- d) Additional Monitoring: Other reviews are conducted as appropriate. These might include reviews of CSBG subrecipients with programs that have had other Federal, state, or local grants (other than assistance provided under the Community Services Block Grant program) terminated for cause. ('676B(a) When a CSBG subrecipient is experiencing problems with programs other than CSBG, the State Office will conduct additional reviews and maintain close contact with the entity to ensure that state staff members are available to provide training and technical assistance as deemed necessary for the CSBG program operations.
- e) The State also conducts routine in-house desk reviews which include an examination of performance and expenditure rates based on monthly reports submitted to the State Office by each subrecipient and a review of periodic outcome and performance data.

Pre-Monitoring Procedures

The State Office will provide timely notification of monitoring of subrecipients and complete some parts of the monitoring prior to arriving on-site for monitoring. Those activities include:

- a) Distribute notification of monitoring at least 30 days prior to on-site monitoring to the Executive Director, CFO, and CSBG designated point of contact. The subrecipient should confirm receipt of the notification and respond within 48 hours if the dates for monitoring need to be changed for any reason. Provision of a 30-day notice may not be possible for Follow-up monitoring or Additional monitoring.
- b) Once the dates of monitoring have been confirmed, the subrecipient will prepare and send the items requested in the official notification of monitoring by the deadline indicated in the notification.
- c) Once the documents are received, a monitoring team member will confirm receipt of the documents.
- d) During the week prior to on-site monitoring, the State Office monitoring team will request any additional information needed from the subrecipient and confirm arrival times and any necessary logistics.

On-site Monitoring Procedures

The State Office will make all efforts to conduct an on-site monitoring as indicated in the Types of Monitoring listed above. A typical visit can be expected to require three (3) to five (5) days on-site. The State Office reserves the right to conduct comprehensive monitoring virtually if necessary. If monitoring must be conducted virtually due to extenuating circumstances, the monitoring may take longer. Monitoring types a, b, and d noted above will usually consist of the following:

- a) Entrance and Exit meetings.
- b) Review of subrecipient policies and procedures, governance documents, personnel documents, program documents, and other documentation as needed.
- c) Interviews with program staff regarding program operations and job functions.
- d) Interviews with administrative and fiscal staff.
- e) Interviews with members of the tripartite board of directors.

Post-Monitoring Procedures

The State Office will provide timely feedback to subrecipients on the results of each monitoring visit with an opportunity for the monitored entity to respond to all observations, concerns, and findings.

- a) After an on-site monitoring visit, the monitoring team will provide a written monitoring report to the entity's executive director and board president within 60 calendar days those documents observations, concerns, and findings. A copy of the monitoring report is also provided to the presiding officer and/or the entity's governing board at the discretion of the State Office.
 - Monitoring Reports will make note of any previous findings in addition to current monitoring observations, concerns, and findings.
 - Depending on the severity of findings, a QIP may or may not be required. If a QIP is required, a QIP document will be provided with the final monitoring report
- b) Subrecipients are required to respond to findings within an assigned timeframe, typically 30 days to assure the 60-day timeframe as described in authorizing statute is met.
- c) The State Office monitoring team will evaluate the adequacy of the responses and corrective action. Approval of the proposed quality improvement plan will occur within 30 days of receiving the entity's response. The entity will be informed of any deficiencies the State Office has deemed to be corrected at the time of approval and/or deficiencies that will require follow-up monitoring from the State Office.
- d) If the subrecipient's response is not sufficient to correct the deficiencies, the State Office monitoring team will work with the entity to formulate an appropriate plan to correct the identified deficiencies.

- e) The State Office will offer and provide training and technical assistance as appropriate in situations described in (c) and (d) of this section.
- f) If a subrecipient's response is to contest an identified deficiency, the State Office will either sustain or revise its initial deficiency finding and provide additional guidance or instructions.
- g) If the subrecipient fails to respond within the assigned timeframe, the State Office will contact the subrecipient to remind them of the requirement to respond to the identified deficiencies and outline the actions the State Office will take if the entity continues not to respond. The subrecipient will have a week grace period starting from the reminder date to submit their response to the State Office. The subrecipient will also be required to provide an explanation as to why they failed to respond during the initial timeframe.
- h) If the subrecipient fails to respond within the week grace period, the State Office will consider initiating termination procedures taking into account the seriousness of the deficiency identified, the subrecipient's communication with the State Office throughout the monitoring process, the possibility for the entity to still meet the statutory 60-day timeframe to initiate corrective actions and past performance.
- i) A follow-up on-site or desk monitoring will be scheduled as deemed necessary to ensure that deficiencies have been corrected. Once the State Office monitoring team has determined that all deficiencies have been corrected, the entity will be informed, and the Quality Improvement Plan will be closed.

Desktop Monitoring Procedures

The State Office will use periodic desktop monitoring reviews as to assist subrecipients in maintaining compliance with data management system requirements, and other areas where the State Office sees room for improvement by Subrecipients. Generally, these types of desktop reviews will not result in official monitoring reports but may require corrections from the subrecipient.
