Quick Poll

G Suite proposition

Working better with G Suite

We strive to get people to work better – together. That's why we believe in Google services and why we think that their solutions are the best for businesses. The productivity tools in G Suite are suitable for businesses of all sizes, and they will save time and make the working day more efficient. In addition, the platform will make internal collaboration even better. How?

Solving challenges

G Suite solves challenges you didn't know you faced, something that makes it a leading player in the sector when it comes to cloud-based infrastructure. Here employees can work together in real time in Google Documents, save and share files, hold video conferences and chat across locations. In addition, G Suite gives you the option to give all employees a custom, professional @yourbusiness e-mail address.

Confronted by the current global pandemic, building departments across the country are facing a challenging question: "Do we shut down or stay open?" Jeff Spies moderates a stellar panel of experts weigh in on options that allow for safe, continued building department operations while maximizing the safety of solar installations. This webinar, hosted Monday, April 6th addresses how building departments can continue operations, using no-touch permitting and practices while preserving permitting and inspection quality. Panelists include Steve Jones, Assistant Building Official Oceanside, California, Chairman SEAC Larry Sherwood, IREC President & CEO Mostafa Kashe - Chief Electrical Inspector for Los Angeles County Dave Gans - Chief Building Official for Oceanside, California Darold Wiley, Sr. Electrical Inspector for Irvine, California Donny Cook - Chief Electrical Inspector for Shelby County, Alabama
