

LIHEAP Model State Plan Data Collection

NASCSP’s research department has collected data from LIHEAP Model State Plans to develop a deeper understanding of how LIHEAP transfer funds are being used in the Weatherization Assistance Program. There is a wealth of information in the plans, and we are excited to share two maps created based on Model State Plan data. The first map shows the LIHEAP to Weatherization transfer amounts and the second shows the rules used for LIHEAP transfer funds. Agency rules are defined as Entirely DOE; Mostly DOE; Entirely LIHEAP; Mostly LIHEAP or NA.

Percent of LIHEAP Transfer to WAP, FY 2022

Agency Rules, FY2022
