(Note: This information is associated with State Accountability Measure 1Sa(i) and pre-populates the State's Annual Report, Module 1, Item B.1.)

The States CSBG-specific goals for the administration: The States primary goal is to ensure funds are available to the eligible entities within a reasonable time no delays in assisting individuals and families within their communities. To meet this goal, the State has reviewed the timeliness of grant executions and will improve the process by extending the grant period from 12 months to 18 months. Also, increasing the allocation from 90 percent to 91.5 percent. Also, the State understands the importance of effectively utilizing the discretionary funds through establishment of innovative programs/ activities by the eligible entities, other neighborhood groups, and statewide initiatives to assist communities in Illinois. With the use of discretionary fund, the State will address natural disasters by filling the gaps in the affected services areas, where other designated Federal, State, and Local entities unable to assist. The State is deeply dedicated to the work to establish and strengthen internal and external partnerships to better assist and coordinate with the network which provides eligible entities with the coordinating resources necessary to increase their ability to provide impactful services. This endeavor has proven successful and is crucial in the continued development of assisting eligible entities to address and assist individuals and families through stabilization. Through relationship building with other State agencies, the State Office discerned the opportunity to describe a model through the establishment of innovative programs and activities to collaborate efforts with focus on individuals and families that are currently being assisted through the services offered by our partners, to work toward the reduction/elimination of duplication of services. Taking an out of box approach, our goal is to work with our partners to establish a pilot resource destination to assist individual/families in and through their stabilization phases. To continue strengthening the internal/external partnerships it will provide coordinating resources that will secure the necessary development of the Whole Family approach (multi-generational) to success. These attainable State goals will achieve more impactful positive outcome for the individuals, families and communities in Illinois

| 6.3a. Assessment Process: Describe the planned assessment process.   |
| The State utilizes several processes to assess the Organizational Standards. 1) The assessment process begins with the eligible entities completing the States on-line self-assessment tool to determine compliance of meeting the standards. The self-assessment utilizes a Likert scale to identify the level of compliance (i.e. unmet, met, exceeds) by the entity. The eligible entities are required to upload any documentation that supports their response to the standard. 2) The State reviews each eligible entitys response and supporting documentation to confirm compliance status. In situations where the State and the eligible entity vary in opinion the eligible entity is afforded the opportunity to submit additional documentation to support the response. Upon final review by the State the on-line system will automatically establish a Technical Assistance Plan (TAP) by eligible entity for each unmet standard. 3) The State also conducts additional reviews of the requirements of the Organizational Standards during on-site monitoring visits. This ensures the unmet standards are addressed and possibly in met standard status prior to the next annual Organizational Standards review period. |
| 6.4. Eligible Entity Exemptions: Will the state make exceptions in applying the organizational standards for certain eligible entities due to special circumstances or organizational characteristics (as described in IM 138)? Yes No   |
| 6.4a. Provide the specific eligible entities the state will exempt from meeting organizational standards, and provide a description and a justification for each exemption   |

To approach assisting holistically to provide the individuals and families within the communities of Illinois with meaningful outcomes of  |   |  |  |  |  |  |  |

assistance it is important to view the use of the discretionary fund from an out of the box perspective. The State office revamped the scholarship program which will require more consistency in the distribution of scholarship awards throughout the State. Also, the new design of the scholarship program has a strong accountability component (i.e. follow-up, financial literacy, partnerships, strong outreach methods, internal/external referral services and supportive service). Through partnering with the Illinois Department of Corrections and the Criminal Justice Information Authority state agencies, the State office has identified the need to address the barriers of the individuals and families that are returning citizens within Illinois. Our goal is to work toward establishing a pilot resource destination to assist the families in and through the transitioning stages of returning and reuniting individuals and families into society. In collaboration with the State Association, eligible entities, and internal/external partnerships, the State office will continue to identify critical focused needs for assisting effectively and efficiently to reduce/eliminate duplicate assistance.

#### 9.2. State Linkages and Coordination at the Local Level:

Describe how the state is encouraging partnerships and collaborations at the state level with public and private sector organizations, to assure the effective delivery and coordination of CSBG services to transform low-income communities and avoid duplication of services (as required by assurances under Sections 676(b)(5) - (6))

Note: This response will link to the corresponding CSBG assurances, items 14.5 and 14.6., and pre-populates the Annual Report, Module 1, Item G.2.

The State understands to encourage partnership and collaborations at the state level with public and private sector organizations is a must to assure effective delivery and coordination of CSBG services. The State decided to start this endeavor through connecting with internal state agencies. Currently the CSBG State office is represented in the following groups: Commission on Poverty Elimination and Economic Securitys subcommittee Pillar 3-Ensure Just and Equitable Access to Economic Security (Illinois Department of Human Services) Interagency Broadband Working Group (Illinois Department of Commerce and Economic Opportunity) Intergovernmental Stakeholders Reentry Convening (Illinois Criminal Justice Information Authority) Discussions with the Illinois Department of Children and Family Services to determine the most effective and impactful approach to partnership External partnerships have also been established with: University of Chicago Targeted Violence Community Safety Committee Illinois Justice Project Economic Opportunity and Upward Mobility Workgroup The Deputy Director of the Office of Community Assistance (OCA) [programs: LIHEAP, WX, and CSBG] currently sits as the board chair of the Illinois 211. This ensures all community action network's service are listed with 211. It also allows for collaborative partnerships throughout the state with other human and social services. The 211 is a 24-hour service that connects residents to a wide variety of human services or social services across the state. The State office also works with several Statewide Community based organizations that have a focus on working with the more mobile populations of the State. This allows for a single entity to provide the necessary case management services and coordination with the local CSBG eligible entity, for these families and individuals to receive necessary assistance in overcoming barriers while minimizing duplication of services. Strengthening these relationships assures the effective delivery and coordination of CSBG services to transform low-income communities and avoid duplication of services by educating and understanding the resources available within the State. Establishing these relationships allows for strong partnerships with open communication at the State level to increase the opportunities for connections at the local level

### 9.3. Eligible Entity Linkages and Coordination

9.3a. State Assurance of Eligible Entity Linkages and Coordination: Describe how the state will assure that eligible entities will partner and collaborate with public and private sector organizations to assure the effective delivery and coordination of CSBG services to low-income people and communities and avoid duplication of services (as required by the assurance under Section 676(b)(5)).

Note: This response will link to the corresponding CSBG assurance, item 14.5.and pre-populates the Annual Report, Module 1, Item G.3a.

The State believes it is imperative for organizations and entities to maintain and develop coordination at the local level. Agencies are required with their Community Action Plan to address their linkages. Eligible entities have established Memorandums of Understandings and/or Service Agreements with townships, community organizations, religious organizations, and local county/public agencies to provide across-the-board services which promote aspirational working families to be successful in their pursuit of self-sufficiency. This approach also reduces and/or eliminates duplication of services. Each eligible entity is a member of multiple collaboratives consisting of social service organizations, religious organizations, school districts, police departments, private businesses, etc. that meet regularly to share information and work together to make services accessible to the communities they assist. Example of these partners include but not limited to: Continuum of Care, WIOA, mental health, Red Cross, and community regional groups. Illinois has eligible entities with highly attuned localized approaches, types of linkages, and coordination. The partnerships allow the eligible entities to identify gaps in assistance, to develop through strong partnership services which address these gaps and helps avoid duplication of services. The results of the linkages and coordination assist in accomplishing the Community Action Goals. Eligible entities are required to maintain an active roster of formal offormal Service Agreements and/or Memorandum of Understandings. The roster is required to be included in the eligible entities Community Action Plan (CAP). The CAP is reviewed by the State to ensure the entities are in compliant with this requirement. With the turnover and hiring of new grant managers within the last 6 months, lessons learned during the gaps, and the goal to continue moving in the direction of consistency in monitoring, it was imperative for the State update the monitoring procedures annually to reflect the States current improvements in the process. In March 2025, the State contracted with NASCSP to begin the process of creating a Network Guide, which will have a monitoring section to ensure a seamless flow when conducting on-site monitoring visits. Internal training continues to be provided to tighten the monitoring process and ensure the clarity and importance of following the procedures.
