United States Senate  
WASHINGTON, DC 20510

September 19, 2025

The Honorable Mike Lee  
Chairman  
Committee on Energy & Natural Resources  
United States Senate  
Washington, D.C. 20510

The Honorable Martin Heinrich  
Ranking Member  
Committee on Energy & Natural Resources  
United States Senate  
Washington, D.C. 20510

Dear Chairman Lee and Ranking Member Heinrich:

We respectfully request that the Committee hold a hearing on the bipartisan *Energy Savings and Weatherization Reauthorization Act* (S. 2570). This legislation reauthorizes and strengthens the federal government's cornerstone energy efficiency initiative, the Weatherization Assistance Program (WAP), which for nearly fifty years has helped millions of Americans lower energy costs, improved home safety, and reduce energy waste. We urge the Committee to advance this important bill in the 119th Congress.

The Weatherization Assistance Program has long enjoyed bipartisan support because it delivers measurable benefits nationwide, assisting more than 7 million households since 1976. By improving insulation, sealing windows, and upgrading heating and cooling systems, WAP reduces average annual household energy bills at little to no cost to participants. These upgrades not only save families money, they also improve health and safety, strengthen housing stock, and support local jobs in energy efficiency.

This legislation would extend WAP through 2030 and modernize the program to reflect the market conditions of today. This legislation raises outdated cost limits, doubles the cap on renewable upgrades, and gives the Secretary of Energy flexibility to respond to inflation. By updating these limits and redefining what it means for a home to be "fully weatherized," the legislation ensures that more families can benefit from comprehensive upgrades that permanently reduce energy use. At a time when energy costs are high and families are seeking relief, reauthorizing WAP is a commonsense, bipartisan solution that will reduce bills, create jobs, and advance U.S. energy efficiency.

Thank you for your consideration of this request. If you have any questions, please contact Jenna Mayhew at [jenna\\_mayhew@coons.senate.gov](mailto:jenna_mayhew@coons.senate.gov) and Megan Bankowski at [Megan\\_Bankowski@coons.senate.gov](mailto:Megan_Bankowski@coons.senate.gov).

# DOE RIFs Rescinded

- The Continuing Resolution (CR) signed by President Trump on November 12 rescinded all RIF notices issued by federal agencies between October 1 and November 12. The CR expires January 31.
- Per DOE court filings, RIFs (without effective dates) had been issued to 62 staff at SCEP and 54 staff under the Assistant Secretary for EERE.

# DOE Reorganization

## **New Office of Critical Minerals and Energy Innovation (CMEI)**

- Prior to the reorganization, SCEP administered WAP and was housed under EERE.
- The specific new location of the WAP program remains unclear.
- Senate-proposed funding for WAP and SEP remain listed under SCEP.
- Neither the FY26 Senate E&W bill nor the report reference CMEI.

# Terms and Conditions Comparison and Compliance Verification Tool

This tool is designed to assist Grantees by providing:

- A side-by-side comparison of U.S. Department of Energy WAP Terms and Conditions for Program Year 2024 (PY24) and PY25
- NASCSP's compliance recommendations to support alignment with DOE requirements
- Dedicated space to document internal references for monitoring or auditing purposes

**Weatherization Assistance Program  
Terms and Conditions Annual Comparison and  
Compliance Verification**  
Program Year 2024 (PY24) compared to PY25.

**Introduction:** The purpose of this document is to provide a comparative overview of the annual U.S. Department of Energy (DOE) Weatherization Assistance Program (WAP) Terms and Conditions. The document also includes compliance recommendations from the National Association for State Community Services Programs (NASCSP). It is intended as a reference tool to support programmatic understanding and alignment with DOE standards. The "Internal Location of document(s), if applicable" columns are intended as a resource for grantees to include a link to where documentation of term compliance is located. Identifying where to easily access the supporting documentation can assist during monitoring and or audit. It is important for the Grantee to understand all the required Terms and Conditions, and for Subgrantees to also understand and maintain compliance. It is also critical to read your specific terms and conditions as some conditions may vary depending on the grantee. Please note that this resource does not constitute legal advice. For specific guidance or clarification, Grantees should consult their DOE Project Officer.

# FAL 2025-05) Implementation of Indirect and Fringe Benefits Cost Reimbursement Limits on Financial Assistance Awards

**On November 10, 2025, the U.S. District Court for the District of Oregon entered an appealable order vacating Policy Flash PF 2025-25 in its entirety and enjoining DOE from implementing it (Case 6:25-cv-01458-MTK). The Department of Energy reserves all rights to appeal. Portions of Financial Assistance Letter FAL 2025-05 and its appendices that implement Policy Flash PF 2025-25 must not be applied until further notice.**
